

VOL. XI, 1962

METABOLISM

Clinical and Experimental

CONTENTS

No. 1 (January)

FULLER ALBRIGHT HONOR ISSUE

Frederic C. Bartter, Guest Editor

Introduction	<i>Frederic C. Bartter</i>	1
In Appreciation: Fuller Albright.....	<i>Anne P. Forbes</i>	3
The Different Effects of Aldosterone-Like Steroids and Hydrocortisone-Like Steroids on Urinary Excretion of Potassium and Acid	<i>Frederic C. Bartter and Paul Fourman</i>	6
Hyperparathyroidism Epitomized: The Case of Captain Charles E. Martell.....	<i>Walter Bauer and Daniel D. Federman</i>	21
Endocrine Features in Albright's Syndrome (Fibrous Dysplasia of Bone)	<i>Patricia H. Benedict</i>	30
Influence of Certain Nucleosides on Glucose Utilization in Man	<i>Harold Elrick, C. J. Hlad, Jr., and Yoshiaki Arai</i>	46
Studies of Growth Arrest in Gonadal Dysgenesis: Response to Exogenous Human Growth Hormone	<i>Anne P. Forbes, Jorgen G. Jacobsen, Evelyn L. Carroll and Maurice M. Pechet</i>	56
Effects of Androsterone and Triiodothyronine on Serum Lipids and Lipoproteins, Nitrogen Balance and Related Metabolic Phenomena in Subjects with Normal and Decreased Thyroid Function, with Hyperglyceridemia and/or Hypercholesterolemia	<i>Robert H. Furman and R. Palmer Howard</i>	76
Renal Handling of Calcium in Parathyroid Disorders	<i>Gilbert S. Gordan, Hans F. Loken, Andrea Blum and James S. Teal</i>	94
Acquired Vitamin D-Resistant Osteomalacia: A New Variety Characterized by Hypercalcemia, Low Serum Bicarbonate and Hyperglycinuria.....	<i>Philip H. Henneman, Eleanor F. Dempsey, Evelyn L. Carroll and Dorothy H. Henneman</i>	103
Free Fatty Acid Content of Adipose Tissue in Three Types of Obese Mice During Fasting	<i>Guy Hollifield, Martin Perlman and William Parson</i>	117
Hyperparathyroidism with Bone Disease. Use of Calciferol and Milk in Postoperative Management....	<i>W. P. U. Jackson and C. P. Dancaster</i>	123

Effects of Human Pituitary Growth Hormone on Lipid Metabolism in Diabetic Subjects <i>Laurance W. Kinsell, Robert E. Visintine, George D. Michaels and Geoffrey Walker</i>	136
Multiple Endocrine Tumors and Zollinger-Ellison Syndrome in Families: One or Two Syndromes? A Report of Two New Families <i>Marc Moldawer</i>	153
Studies Concerning the Nature of the Adrenal Androgen in Man: A Specific Structural Requirement for Somatotropic and Androgenic Activity as Measured by the Effects on the Metabolism of Nitrogen, Calcium, Phosphorus, Sodium and Potassium <i>Maurice M. Pechet, Evelyn L. Carroll and Laurence S. Jacobs</i>	167
Abstracts	188

No. 2 (February)

Editorial: Serum Lipoproteins, Cholesterol and Triglycerides in Coronary Heart Disease..... <i>Richard J. Havel and Lars A. Carlson</i>	195
Distribution of Lipids in Different Regions of Human Aorta <i>M. C. Nath and Mrs. Indu Vaishwanar</i>	198
Hyperthyroidism and Diabetes..... <i>Arthur F. Abt</i>	202
Phosphate Excretion in Normal and Hyperparathyroid Subjects with Controlled Phosphate Intake <i>H. S. Yamahiro and Telfer B. Reynolds</i>	213
Clinical and Chemical Response of Functioning Adrenal Cortical Carcinoma to Ortho, Para'-DDD <i>Thomas A. Verdon, Jr., Joseph Bruton, Robert H. Herman and William R. Beisel</i>	226
Modifying Influence of Glucose on Fatty Acid-Mobilizing Activities of Epinephrine, ACTH and Growth Hormone in Vitro <i>Richard M. Buckle and John C. Beck</i>	235
Glucose Metabolism, Glutathione Stability and Electrolyte Composition of Human Red Blood Cells <i>E. Heimann-Hollander, J. Benbassat and J. J. Groen</i>	245
Influence of Alterations in Sodium Intake on Urinary Aldosterone Response to Corticotropin in Normal Individuals and Patients with Essential Hypertension <i>Eleanor H. Venning, Inge Dyrenfurth, John B. Dossetor and John C. Beck</i>	254
Cushing's Syndrome in Conjunction with Nocardia Asteroides Infection <i>T. S. Danowski, W. M. Cooper and A. Braude</i>	265
Preliminary Report: Dihydrotestosterone-Hypocholesterolemic Androgenic Hormone..... <i>Joseph F. Dingman and Wiley H. Jenkins</i>	273
Abstracts	276

No. 3 (March)

Comparisons of Pharmacologic Dosages of ACTH and Cortisone: Endocrine and Biochemical Indices

T. S. Danowski, A. C. Heineman, Jr., and Campbell Moses	281
Treatment of "Idiopathic" Hyperlipemia	
William R. Waddell, Nancy Hurley and Richard A. Field	290
Measurement of Changes in Gross Body Composition during Controlled Weight Reduction in Obesity by Metabolic Balance and Body Density—Body Water Technics	
Nathaniel I. Berlin, Donald M. Watkin and Norman R. Gevirtz	302
Serum Lipids and Electrophoretic Patterns of Proteins, Lipoproteins and Glycoproteins in Patients Receiving Multiple Infusions of Fat Emulsion.....	
H. C. Meng, J. S. Kaley and John L. Shapiro	315
Glucose Stimulation of Salt Retention in Patients with Aldosterone Inhibition.....	
Albert Gersing and Walter Lyon Bloom	329
Use of Diethylpropion in Obese Diabetic Patients	
James Robert Hendon and Stuart Urbach	337
Long-Term Effects of Restricted Caloric Intake on Pancreatic Islet Tissue of Obese-Hyperglycemic Mice	
Birger Petersson and Bo Hellman	342
Lipoprotein Lipase and Tributyrinase in Rat Adipose Tissue	
J. David Schnatz and Robert H. Williams	349
Aminoaciduria in Selected Metabolic Errors	
Michael J. Carver, Stephen J. Dutch, Rita Paska and Cecil Wittson	357
Intravenous Triolein-I ¹³¹ and Tripalmitin-C ¹⁴ Emulsions in Humans	
Marios C. Balodimos, James J. Ball and Robert H. Williams	365
Abstracts	374
News and Notes.....	380

No. 4 (April)

Interstitial Muscle Capillaries in Patients with Diabetes Mellitus: A Light and Electron Microscope Study	
S. I. Zacks, J. J. Pegues and F. A. Elliott	381
Effect of the Diabetic State on Selected Mitochondrial Reactions	
Robert E. Beyer, Charles A. Shamoian and Melvin N. Abend	394
Phenethylbiguanide: Clinical Experiences with Timed-Disintegration Capsules in Stable Diabetes Mellitus	
Robert S. Radding, John I. McHenry, Winston B. Neely and Frederick R. Lummis, Jr.	404
Comparative Pharmacology of the Sulfonylureas	
Robert S. Radding, Lee R. Kern and John C. Owens	411
Measurement of I ¹³¹ -Insulin and of Insulin-Like Activity in Cerebrospinal Fluid of Man	
W. A. Mahon, J. Steinke, G. M. McKhann and M. L. Mitchell	416
Metabolic Balance and Sr ⁸⁵ Study of a Patient with Multiple Myeloma Treated with Corticosteroids and Androgens	
William A. Skoog, William S. Adams and Norman S. MacDonald	421
Plasma 17-Hydroxycorticosteroid Responsiveness to ACTH in Patients with Bronchogenic Carcinoma. .	
Joseph L. Belsky and Leon J. Marks	435

Effect of Thyroxine and Other Iodinated Compounds upon Binding of Triiodothyronine to Human Serum Proteins	
<i>T. S. Danowski, R. D. D'Ambrosia, J. Dorcak and M. Nakano</i>	443
Metabolism of Alanine, Serine and Valine in Adipose Tissue	
<i>D. D. Feller and E. Feist</i>	448
Metabolism of Dihydroxyacetone in the Intact Rat	
<i>M. U. Tsao, E. L. Schwartz and G. H. Lowrey</i>	456
Metabolism of C ¹⁴ -Dihydroxyacetone in the Intact Rat	
<i>M. U. Tsao, I. A. Bernstein and G. H. Lowrey</i>	465
Abstracts	470
Book Review	474
News and Notes	474

No. 5 (May)

Clinical Evaluation of Acetohexamide in Treatment of Diabetes	
<i>John A. Owen, Jr.</i>	475
Physiologic Significance of the Intravenous Glucose Tolerance Test	
<i>J. R. M. Franckson, H-A. Ooms, R. Bellens, V. Conard and P. A. Bastenie</i>	482
Effects of Anabolic Steroid, Methandienone, on Carbohydrate Metabolism in Man	
<i>J. Landon, Victor Wynn, J. N. C. Cooke and A. Kennedy</i>	501
Effects of Anabolic Steroid, Methandienone, on Carbohydrate Metabolism in Man. II. Effect of Methandienone on Response to Glucagon, Adrenalin and Insulin in the Fasted Subject	
<i>J. Landon, Victor Wynn, B. J. Houghton and J. N. C. Cooke</i>	513
Inhibition of Negative Nitrogen Balance by an Anabolic Agent (Methandrostenolone) during Corticosteroid Therapy (Dexamethasone) in Rheumatoid Arthritis. . . .	
<i>Harry Ruchelman and Ralph V. Ford</i>	524
Metabolism of Glucose-U-C ¹⁴ in Rat Aorta in Vitro	
<i>Guillermo Urrutia, Donald W. Beavan and George F. Cahill, Jr.</i>	530
Effect of Liver on Bone Mineralization of Mice on a Meat Diet	
<i>Judith Ilan, A. Schwartz and K. Guggenheim</i>	535
Effect of Anti-Kidney Serum upon Protein Transport by Dog Kidney	
<i>William S. Harms, Pierce G. Blitch, Jr., A. Cleon Johnson, Jr., and Thomas Findley</i>	542
Abstracts	548

No. 6 (June)

Evaluation of Duration of Action and Clinical Effectiveness of Acetohexamide.	
<i>Charles Weller, Amelia Donesa and Morton Linder</i>	551
Leucine Prolongation of Tolbutamide-Induced Hypoglycemia	
<i>T. S. Danowski, J. V. Bonessi, W. R. Balash and Campbell Moses</i>	556
Diabetes Mellitus with Insulin Resistance: Report of a Case Successfully Treated with Tolbutamide.	
<i>Eugene J. Segre</i>	562
Dietary Starch: Effect on Cholesterol Levels	
<i>Daniel R. Farnell and Moore J. Burns</i>	566

Effect of ACTH, Hydrocortisone and Glucagon on Plasma Non-esterified Fatty Acid Concentration (NEFA) in Normal Subjects and in Patients with Liver Disease
David A. Dreiling, Edwin L. Bierman, Albert F. Debons, Peter Elsbach and Irwin L. Schwartz 572

Antimetabolic Activity of a Thyroxine Analogue: 3:5 Di-iodo-thyroacetic Acid (DIAC).....Thomas F. Frawley and Francis A. Zacharewicz 579

Pheochromocytoma with Radioactive Iodine Uptake and Electrocardiographic Abnormalities: Case Report with a Review of Thyroid-adrenal Medullary Interrelationships
Walter Futterweit, Lucretia Allen and Marvin Moser 589

Sulfur Metabolism and Diabetogenic Hormones.....George V. Mann 600

Metabolic Balance Studies of a Patient with Multiple Myeloma Given Combined ACTH-Androgen Therapy: Comparisons of Three Androgens Administered in Varying Dosage on Exchanges of Calcium, Phosphorus and Nitrogen... William A. Skoog and William S. Adams 614

Effects of a Bacterial Polysaccharide (Piromen) on the Pituitary-Adrenal Axis: Chronic Cortisone Blockade of Piromen-Induced Release of ACTH.....Bernard C. Wexler 626

Editorial: Chronic Insulin Resistance.....James B. Field 636

Abstracts 641

No. 7 (July)

SYMPOSIUM: HYDROCORTISONE AND/OR DESICCATED THYROID IN PHYSIOLOGIC DOSAGE

T. S. Danowski, Special Editor

Preface.....T. S. Danowski 647

I. Introduction to Studies of Hypolipemic and Other Effects Including Relationships to the Aging Process
T. S. Danowski and Campbell Moses 648

II. Hypolipemic Effects.....Campbell Moses, J. R. Jablonski, J. H. Sunder, J. H. Greenman and T. S. Danowski 653

III. Effects on Urinary Steroids, Pressor Amines and Gonadotropins
T. S. Danowski, Campbell Moses and A. C. Heineman, Jr. 665

IV. Serum Protein-Bound Iodine and Other Thyroid Hormone Indices
T. S. Danowski, Campbell Moses and F. M. Mateer 679

V. Serum Solutes and Electrolytes..T. S. Danowski and Campbell Moses 689

VI. Effects on Glucose Tolerance and Insulin Tolerance
T. S. Danowski, Campbell Moses and F. M. Mateer 699

VII. Pituitary-Adrenocortical and Thyroidal Function
T. S. Danowski, Campbell Moses, D. C. Borecky, W. R. Balash, J. V. Bonessi and M. V. Gilberti 705

Effect of Adrenal Steroids on Radio-Calcium Metabolism in Dogs
Elliott J. Collins, Edward R. Garrett and Richard L. Johnston 716

Hereditary Fructose Intolerance, an Inborn Deficiency of Liver Aldolase Complex.....Esko A. Nikkilä, Olli Somersalo, Elja Pitkänen and Jaakko Perheentupa 727

Coexisting Klinefelter's Syndrome and Primary Hyperparathyroidism: Report of Case <i>John A. Spalding, George W. Morrow, Jr., and Donald A. Scholz</i>	732
Abstracts	735

No. 8 (August)

SYMPOSIUM: LIPID METABOLISM

Laurance W. Kinsell, Special Editor

Foreword.....	<i>Laurance W. Kinsell</i>	741
Fatty Acid Metabolism and Ketone Body Formation <i>Salih J. Wakil and Rubin Bressler</i>		742
Hyperlipidemia with Ketoacidosis	<i>James Campbell</i>	762
A Calorie Deficiency Hypothesis of Ketogenesis.....	<i>P. A. Mayes</i>	781
Endocrine Control of the Fatty Liver and Serum Lipids in Baboons with Special Reference to the Disorder of Lipid Metabolism in Kwashiorkor.	<i>Joseph Gillman, Christine Gilbert and Nerina Savage</i>	800
Myocardial Extraction of Plasma Free Fatty Acids in Healthy Indi- viduals and Diabetics <i>A. Carlsten, B. Hallgren, R. Jagenburg, A. Svanborg and L. Werkö</i>		814
Relationship between Obesity and Diabetes Mellitus. . .	<i>Edgar S. Gordon</i>	819
A Method for the Determination of Plasma Glycerides and Free Fatty Acids.....	<i>George Michaels</i>	833
Correlations between Lipoprotein Concentration and Fatty Acid Com- position in Serum of Normal and Hyperlipemic Subjects: A Review <i>David G. Cornwell, Fred A. Kruger, George J. Hamwi and J. B. Brown</i>		840
Hyperlipidemia in Uncontrolled Diabetes <i>George J. Hamwi, Osvaldo Garcia, Fred A. Kruger, Grant Gwinup and David G. Cornwell</i>		850
An Approach to Understanding of the Gross Hyperlipidemic States <i>Laurance W. Kinsell, George D. Michaels, Geoffrey Walker, Stanford Splitter and George Fukayama</i>		863
Effect of Chronic Heparin Administration on Serum Lipids, Lipopro- teins, Nitrogen and Electrolyte Balance in Normal and Heparin- Responsive and Heparin-Unresponsive Hyperglyceridemic Subjects <i>Robert H. Furman, R. Palmer Howard and Peter Alaupovic</i>		879
The Incorporation of C ¹⁴ from Uniformly Labeled Glucose into Plasma Triglycerides in Normals and Hyperglyceridemics <i>Melwyn Fine, George Michaels, Shantilal Shah, Bong Chai, George Fukayama and Laurance Kinsell</i>		893
Short Term Study of Effect of Different Isocaloric Diets in Diabetes <i>I. Ernest, B. Hallgren and A. Svanborg</i>		912
Effects of Natural and Hydrogenated Fats of Approximately Equal Dienoic Acid Content upon Plasma Lipids <i>Sebastiano Grasso, Barbara Gunning, Kunitaro Imaichi, George Michaels and Laurance Kinsell</i>		920

Studies of Cholesterol Metabolism with C-¹⁴ Acetate Diabetic Patients
and in Patients with Hypercholesterolemia
Allen R. Hennes, Margaret Z. Moore and Yanna F. Masters 925

No. 9 (September)

Effects of Dextro and Levo-Thyroxine and Triiodothyronine on Lipo-
protein Partition and Red Cell T₃ I¹³¹ Uptake
*John R. Jablonski, Barbara Neilan, Joseph H. Sunder, CeCe Zara
and Campbell Moses* 935

Catabolic Activity of Steroidal Anti-Inflammatory Compounds
G. W. Duncan and J. C. Stucki 940

Cushing's Syndrome in Infancy: Report of a Case
*Martin Perlmutter, A. Zachary Apfel, Joseph Avin,
Harold B. Hermann and Elliott A. Klein* 946

Synthesis of Plasma Albumin and Tissue Proteins in Regenerating Liver
George A. Braun, Julian B. Marsh and David L. Drabkin 957

Amino Acid Mobilization in Plasma Protein Biosynthesis in Experi-
mental Nephrosis
David L. Drabkin, Julian B. Marsh and George A. Braun 967

Polyostotic Fibrous Dysplasia with Hypophosphatemia: A Metabolic
Study.....*Arthur S. Kunin* 978

Effect of Rat Weight upon Adipose and Muscle Tissue Electrolytes
*Helen E. Martin, Robert E. Tranquada, Paul M. Beigelman
and Ruth Jones* 993

Jejunal Dialysis. I.: The Effect in the Dog of Local Iodoacetate (IAA)
on the Dialysis of Urea, Creatinine, Inorganic Phosphorus and
Xylose.....*Richard E. R. Meyer, William D. Cohen, Jose R. Solis
and Raoul J. LeBeau* 999

Reduced Adrenocortical Steroid Excretion Rates in Man Following
Aspirin Administration.....*Howard C. Elliott* 1015

Preliminary Report: Routine Estimation of "Free" 17-OH-Corticosteroids
in Plasma.....*Ludwig Kornel* 1019

Preliminary Report: Urinary Hydroxyproline in Hyperparathyroidism:
A Study of Three Cases with and without Bone Lesions
LeRoy Klein, Kai Albertsen and Paul H. Curtiss, Jr. 1023

Abstracts 1028

News and Notes 1032

No. 10 (October)

A Study on the Mechanism of the Antidiuretic Action of Chloro-
thiazide in Diabetes Insipidus
A. David Goodman and Rodman D. Carter 1033

The Effect of Chlorothiazide in Diabetes Insipidus with Particular Refer-
ence to the Osmolality of the Serum
J. S. Robson and Anne T. Lambie 1041

Regression of Goiter by Whole Thyroid or Triiodothyronine <i>Norman G. Schneeberg, Theodore J. Stahl, Godofredo Maldia and Hyman Menduke</i>	1054
Observations on the Mechanism of Action of Steroidal Spirolactones <i>Clarence L. Gantt</i>	1061
Study on Skinfold Thickness of School Children in Some Developing Countries I.: Skinfold Thickness of Libyan Boys <i>A. Ferro-Luzzi and G. Ferro-Luzzi</i>	1064
II.: Skinfold Thickness of Moroccan Boys..... <i>G. Ferro-Luzzi</i>	1072
Arterial and Venous Ammonia Response to Intravenous Protein Hydro- lysate Administration <i>Rodman B. Finkbiner, Martha Arcos and Syed Z. Ahmed</i>	1077
The Effect of Hypothermia on Intermediary Metabolism <i>William R. Drucker, Bryant Kingsbury and Linda Graham</i>	1087
Effects of 2-Deoxyglucose on Carbohydrate Metabolism: Review of the Literature and Studies in the Rat..... <i>Josiah Brown</i>	1098
Effect of Diet and Sex on the Relative Lipid Composition of Plasma and Red Blood Cells in the Rat <i>Elaine Ranker Monsen, Ruth Okey and Richard L. Lyman</i>	1113
Abstracts	1125

No. 11 (November)

Short Communication: Increased Urinary Porphobilinogen and Uro- porphyrin after Administration of Stilboestrol in a Case of Latent Porphyria..... <i>C. J. Watson, Walter Runge and Irene Bossenmaier</i>	1129
The Phenformin Timed-Disintegration Capsule (DBI-TD) in the Man- agement of Previously Treated Diabetic Patients <i>Charles Weller, Amelia Donesa and Morton Linder</i>	1134
Acute Tolbutamide and Leucine Effects in Diabetes Mellitus <i>T. S. Danowski, James V. Bonessi and Campbell Moses</i>	1141
Studies on the Metabolism of Carbohydrates at Sea Level and at High Altitudes..... <i>E. Picón-Reátegui</i>	1148
The Effect of Ortho,Para'DDD on Steroid Hormone Metabolites in Adrenocortical Carcinoma <i>T. F. Gallagher, David K. Fukushima and Leon Hellman</i>	1155
The Cerebral Metabolic Effects of Acutely Induced Hypoglycemia in Human Subjects.... <i>Seymour Eisenberg and Holbrooke S. Seltzer</i>	1162
Alterations of Alcohol Dehydrogenase and Other Hepatic Enzymes in Experimental Chronic Liver Disease <i>Rolando B. Figueroa and Arthur P. Klotz</i>	1169
Severe Hyponatremia Associated with Pneumonia <i>James M. Stormont and Christine Waterhouse</i>	1181
Dietary Fat and Tissue Lipids in Experimental Nephrosis <i>Hans Kaunitz</i>	1187

Studies on the Mechanism of Idiopathic Hyperlipemia with Hyperglycemia.....	<i>Oscar B. Crofford</i>	1194
Heparin-Induced Clearing Factor: Comparative Studies between Normal Controls and Patients with Electrocardiographic Signs of a Past Myocardial Infarction (Coronary Heart Disease)	<i>Italo Martirani, Evaldo H. L. Melo, Gunther Höxter, Bernardo L. Wajchenberg and Antonio Barros de Ulhoa Cintra</i>	1210
Abstracts		1221
News and Notes		1224

No. 12 (December)

Leucine Accentuation of Exogenous Insulin-Induced Hypophosphatemia: Probable Origins	<i>T. S. Danowski, Campbell Moses and James V. Bonessi</i>	1225
Effect of Glucocorticoids on Serum Cholesterol and Triglyceride Distribution.....	<i>J. C. Forbes, Edwin S. Higgins and O. M. Petterson</i>	1232
Effect of Glucagon on the Serum Lipids in Essential Hyperlipemia and in Hypercholesterolemia	<i>Donald S. Amatuzio, Francisco Grande and Shohachi Wada</i>	1240
Lipid Metabolic Studies in Patients with Essential Hypertriglyceridemia	<i>H. Engelberg</i>	1250
The Extra-Adrenal Metabolism of Cortisol in Triparanol Treated Subjects.....	<i>Leon J. Sholiton, Emile E. Werk, Jr., and Joseph MacGee</i>	1265
Total Exchangeable Potassium in Hyperthyroidism.....	<i>J. S. Staffurth</i>	1274
The Use of Acetohexamide in the Treatment of Diabetes Mellitus	<i>Harold L. Dobson</i>	1282
Biochemical Studies of Experimental Porphyria	<i>Donald P. Tschudy, James Rose, Emanuel Hellman, Annie Collins and M. Rechcigl, Jr.</i>	1287
The in Vitro Effects of Thyroxine on Corticoid Synthesis in Rat Adrenal Homogenates.....	<i>John Iao and Seymour B. Koritz</i>	1302
Sterol Biosynthesis under the Influence of a Thyroxine Analog (3,5-Diiodothyroacetic Acid).....	<i>John P. Kane and Peter H. Forsham</i>	1310
Additional Studies with Insulin Bio-Assay Employing Glucose Uptake by Rat Adipose Tissue.....	<i>Paul M. Beigelman</i>	1315
Book Review		1325
News and Notes		1325

Index of Subjects

(Page numbers in *italics* refer to abstracts.)

- Acanthocytosis, and lack of b-lipoproteins, 189
- Acatalasia, 646
- Acetohexamide
action of, 551-555
in diabetes, 475-481, 1282-1286
pharmacology of, 411-415
- Acetylsalicylic acid, corticosteroid excretion after, 1015-1017
- Acid-base balance, and mitochondria, 280
- Acidosis, hyperlipemia with, 762-773
- ACTH
aldosterone secretion after, in hypertension, 254-263
and androgen therapy in myeloma, 614-625
in bronchogenic carcinoma, 435-441
cortisone compared with, 281-288
effects on fatty acids, 572-577
fat-mobilizing activity of, 235-243
liberation from pituitary, 191
in myeloma, multiple, 421-433, 614-625
piromen-induced release, cortisone block of, 626-634
in plasma, 643
structure of, 377
and sulfur metabolism, 611
- ACTH-Z, adrenocortical reserve function after, 472
- Addison's disease, diabetes with, 208
- Adenosine triphosphate, insulin regulation of, 394-401
- Adipose tissue. *See* Obesity
- Adrenal gland
androgen, 167-185
biosynthesis in gonadal dysgenesis, 735
- cortex
in aging process, 648-651
carcinoma, treatment of, 226-233, 1155-1160
cold exposure affecting, 279
deficiency with pluriglandular failure and diabetes, 735
diabetogenic action, 207
feminizing tumor, 549
function studies, 472
and pituitary function, 705-714
reserve capacity studies, 472, 736, 1029
vitamin A affecting function, 279
- Cushing's syndrome
in infancy, 946-955
and nocardiosis, 265-270
hyperplasia, carcinoid syndrome with, 645
insufficiency, iatrogenic, 1128
medulla, thyroid relationship with, 589-596
piromen and ACTH affecting, 629
- steroids
in arthritis, methandrostenolone with, 524-529
effects on radiocalcium metabolism, 716-725
effects of therapy, 377
excretion after aspirin, 1015-1017
glucose and phosphate responses to, 1031
in insulin-resistant diabetes, 638
in myeloma, multiple, 421-433, 614-625
synthesis in renal amyloid disease, 193
thyroxine affecting corticoid synthesis, 1302-1308
See also specific steroids
and tryptophan pyrrolase of tumor-bearing rats, 472
- Adrenalectomy
erythropoiesis after, 736
and insulin sensitivity, 1223
- Adrenaline
fat-mobilizing activity of, 235-243
methandienone affecting response to, 513-522
- Adrenaline-secreting pheochromocytoma, hypotension with, 377
- Adrenocorticotrophic hormone. *See* ACTH
- Aging, hormonal changes in, 647
- Alanine metabolism, in adipose tissue, 448-454
- Albright, Fuller, 1-5
- Albright's syndrome, endocrine features in, 30-44
- Albumin. *See* Protein
- Alcohol dehydrogenase, in liver disease, 1169-1178
- Aldolase complex, liver, deficiency of, 727-730
- Aldosterone
and effects of glucose on sodium excretion,

- 329-336
excretion in hypertension, sodium affect-
ing, 254-263
- Aldosterone-like steroids, 6-18
- Aldosteronism, diagnosis of, 277
- Altitude, effects on carbohydrate metabo-
lism, 1148-1153
- Amino acids
dietary, effects on childhood growth, 642
metabolism in adipose tissue, 448-454
mobilization for hepatic protein synthesis,
967-976
and protein synthesis in tumor tissue, 1222
renal clearance in cystinuria, 736
- Aminoaciduria, 357-363
renal, and cor pulmonale, 190
- Ammonia, arteriovenous response to protein
hydrolysate infusion, 1077-1085
- Amyloid disease, renal, and adrenal steroid
synthesis, 193
- Androgen
adrenal, 167-185
biosynthesis in gonadal dysgenesis, 735
dihydrotestosterone, 273-275
therapy in myeloma, 421-433, 614-625
- Androstereone, effects of, 76-91
- Anemia
hemolytic, erythrocytic pyrophosphatase
in, 1221
from meat diet in mice, 535-540
- Antibodies, glucagon, 192
- Antidiuretic activity in serum, after ovar-
ectomy, 471
- Antidiuretic hormone, and glucose inhibi-
tion of sodium excretion, 335
- Aorta
glucose metabolism in, 530-534
lipid distribution in, 198-201
- Arginine, renal clearance in cystinuria, 736
- Arthritis, rheumatoid, nitrogen balance dur-
ing corticosteroid therapy, 524-529
- Arylsulphatase activity, leukocyte, 1221
- Ascorbic acid, adrenal, cortisone affecting,
631
- Atherosclerosis
gaschromatography of plasma fatty acids,
473
and heparin-induced clearing factor,
1210-1219
lipids in aorta, 198-201
tetracycline affecting, 278
Triolein- I^{131} in, 366
- Bicarbonate, serum, in osteomalacia, 103-
115
- Biguanides, in diabetes, 404-410
- Bile acids
and cholesterol metabolism, 276
effects on liver cholesterol, 736
- Biliary cirrhosis, hyperlipemia with, 874
- Blood pressure
pheochromocytoma with hypotension, 377
sodium intake alterations in hypertension,
254-263
- Body composition, gross, changes in, 302-
313
- Bone
cellular metabolism and parathyroid
hormone, 379
fibrous dysplasia, 30-44
mineralization, beef liver affecting, 535-
540
- Book reviews
Diseases of Porphyrin Metabolism (*Bold-
berg & Rimington*), 1325
Proceedings of the Fourth International
Congress on Clinical Chemistry, 474
- Bromide, effects on thyroid, 192
- Calciferol. *See* Vitamin D
- Calcium
deficiency, and osteoporosis, 535-540
intake, in hyperparathyroidism, 473
levels in osteomalacia, 103-115
metabolism
adrenal androgen affecting, 167-185
of bone, in vitro, 379
in corticosteroid-androgen therapy in
myeloma, 429, 614-625
growth hormone affecting, 66
radioactive, adrenal steroids affecting
metabolism, 716-725
renal handling in parathyroid disorders,
94-100
serum
determination of, 278
hydrocortisone and thyroid affecting,
694
urine, determination of, 278
- Capillaries, in diabetes mellitus, 381-392
- Carbohydrate metabolism
altitude affecting, 1148-1153
anabolic steroids affecting, 276
2-deoxyglucose affecting, 1098-1110
in erythrocytes, 378
in glycogen storage disease, 1126
insulin affecting, 643
in liver disease, 46-54
methandienone affecting, 501-523
- Carbon, radioactive, glucose labeled with,

- incorporation into plasma triglycerides, 893-910
- Carbon dioxide, serum, hydrocortisone and thyroid affecting, 690
- Carcinoid syndrome, adrenal hyperplasia with, 645
- Carcinoma
 - adrenocortical, treatment of, 226-233, 1155-1160
 - bronchogenic
 - ACTH in, 17-OHCS response to, 435-441
 - pseudohyperparathyroidism with, 645
- Catalase
 - congenital absence of, 646
 - liver, in porphyria, 1287-1299
- Cerebrospinal fluid
 - cortisol levels in, 376
 - insulin in, 416-420
- Cerebrum
 - lipidosis, aminoaciduria in, 357-363
 - metabolic effects of hypoglycemia, 1162-1167
- Ceruloplasmin, copper incorporation into, 379
- Chloride
 - in adipose tissue, 994
 - effects on thyroid, 192
 - metabolism
 - in ACTH and androgen therapy of myeloma, 429
 - growth hormone affecting, 71
 - serum, hydrocortisone and thyroid affecting, 690
- Chlorothiazide
 - antidiuretic action of, 1033-1039
 - in diabetes insipidus, 1033-1039, 1041-1052
 - effects on renal excretion of uric acid, 1032, 1126
- Chlorpropamide
 - in diabetes, 475-481
 - pharmacology, 411-415
- Chlortetracycline, in atherosclerosis, 278
- Cholesterol
 - adrenal, cortisone affecting, 631
 - hypercholesterolemia, 872-874, 925-933
 - hypercholesterolemic xanthomatosis, 278, 279
 - levels
 - cortisone affecting, 600-612
 - dietary starch affecting, 566-570
 - liver, bile acid affecting, 736
 - metabolism studies, 925-933
 - and bile acids, 276
- serum
 - androsterone affecting, 79
 - in coronary heart disease, 195-197
 - dihydrotestosterone affecting, 273-275
 - glucagon affecting, 1240-1247
 - glucocorticoids affecting, 1232, 1239
 - and thyroid hormone activity, 1310-1313
- Cirrhosis
 - biliary, hyperlipemia with, 874
 - hepatic, carbohydrate metabolism in, 46-54
- Cold exposure
 - effects on adrenal cortex, 279
 - effects of hypothermia on intermediary metabolism, 1087-1095
- Copper
 - deficiency, and osteoporosis, 535-540
 - incorporation into ceruloplasmin, 379
- Cor pulmonale, and renal aminoaciduria, 190
- Cori factor, effects of, 207
- Coronary heart disease
 - and heparin-induced clearing factor, 1210-1219
 - serum lipoproteins in, 195-197
- Cortisol
 - blood-cerebrospinal fluid barrier in, 376
 - extra-adrenal metabolism of, 1265-1272
 - metabolism, and 6 β -hydroxycortisol, 642
- Cortisone
 - ACTH compared with, 281-288
 - block of piromen-induced release of ACTH, 626-634
 - and sulfur metabolism, 600-612
- Creatine excretion, androsterone affecting, 85
- Creatinine, jejunal clearance of, 999-1013
- Cushing's syndrome
 - in infancy, 946-955
 - with nocardiosis, 265-270
- Cysteine, and sterol metabolism, 600-612
- Cystinosis, aminoaciduria in, 357-363
- Cystinuria
 - amino acid renal clearance in, 736
 - intestinal absorption defect in, 549
- Cytidine, effects in liver disease, 46-54
- o,p'-DDD, in adrenal cortical carcinoma, 226-233, 1155-1160
- Dehydrogenase, alcohol, in liver disease, 1169-1178
- 2-Deoxyglucose, effects on carbohydrate metabolism, 1098-1110
- Deoxyribonucleic acid (DNA), of rat organs

- in postnatal growth, 1128
- Dexamethasone
 - in arthritis, effects on nitrogen balance, 524-529
 - catabolic activity of, 940-944
- Diabetes Association of the District of Columbia, 1224, 1325
- Diabetes insipidus
 - chlorothiazide in, 1033-1039, 1041-1052
 - diagnostic test for, 738
 - pregnancy with, 374
- Diabetes mellitus
 - acetoheamide in, 475-481, 551-555, 1282-1286
 - binding abnormalities in serum, 645
 - calorie deficiency and ketogenesis, 789-793
 - capillaries in, 381-392
 - cholesterol metabolism in, 925-933
 - community survey, 1222
 - dihydroxyacetone metabolism in, 456-463, 465-468
 - erythrocyte metabolism in, 378
 - fatty acid synthesis in, 755-756
 - and hepatic cirrhosis, 46
 - hyperlipemia with ketoacidosis, 762-773
 - hyperosmolaric nonacidotic coma, 739
 - and hyperthyroidism, 202-210
 - insulin in cerebrospinal fluid, 416-420
 - insulin resistance, 636-638
 - tolbutamide in, 562-565
 - isocaloric diets in, 912-918
 - leucine action with tolbutamide, 556-560, 1141-1146
 - leucine and insulin effects, 1225-1231
 - lipid metabolism in, growth hormone affecting, 136-151
 - and mitochondrial reactions, 394-401
 - myocardial extraction of plasma fatty acids, 814-817
 - and obesity, 337-341, 819-831
 - phenethylbiguanide in, 404-410. *See also* Phenformin
 - pluriglandular failure with, 735
 - salicylates and Khelline affecting blood sugar, 1223
 - sorbital metabolism in, 641
 - sulfonylureas, pharmacology of, 411-415
 - triolein- I^{131} in, 366
 - tripalmitin- C^{14} in, 367
 - uncontrolled, hyperlipemia in, 850-861
- Diabetogenic hormones, and sulfur metabolism, 600-612
- Dianabol. *See* Methandienone
- Diarrhea, from invertase deficiency, 1224
- Diet
 - amino acid feedings, effects on growth, 642
 - effects on lipid composition, 1113-1123
 - in hyperlipemia, 290-300
 - isocaloric, in diabetes, 912-918
 - low-fat, in Mediterranean fever, 1028
 - meat diet, effects on mice, 535-540
 - in obesity. *See* Obesity
 - in phenylketonuria, 470
 - vegetable oils affecting plasma lipids, 644, 920-924
- Diethylpropion, in obese diabetic patients, 337-341
- Dihydrotestosterone, an androgenic hormone, 273-275
- Dihydroxyacetone metabolism in rat, 456-463, 465-468
- 3:5 Diiodothyroacetic acid (DIAC), 579-586
 - effects on sterol biosynthesis, 1310-1313
- Dimercaprol, in insulin-resistant diabetes, 638
- Electrocardiography, in pheochromocytoma, 589-596
- Electrolytes, in red cells, and glucose metabolism, 245-253
- Encephalopathy, thyroxine tracer doses in, 549
- Endocrines, 191-193
 - adrenocorticotrophic hormone liberation from pituitary, 191
 - in Albright's syndrome, 3044
 - control of fatty liver and serum lipids, 800-812
 - tumors and Zollinger-Ellison syndrome, 153-165
- Endocrinology and Metabolism, Fourteenth Postgraduate Assembly in, 474
- Epinephrine. *See* Adrenaline
- Erythrocytes
 - carbohydrate and lipid metabolism in, 378
 - glutathione stability in, 245-253
 - lipid composition, diet and sex factors, 1113-1123
 - magnesium in, 644
 - pyrophosphatase activity in hemolytic anemias, 1221
- Erythropoiesis, endocrines, affecting, 736
- Estrogens
 - effect in diabetes, 208
 - and fatty acid metabolism, 1029
- N-Ethylmaleimide, effect on insulin action, 376

- Fat**
 absorption, and lack of lipoproteins, 189
 dietary
 effects on plasma lipid levels, 920-924
 in nephrosis, 1187-1193
 emulsions
 intravenous administration, 365-372
 multiple infusions of, effects of, 315-326
- Fatty acids**
 ACTH, hydrocortisone and glucagon affecting, 572-577
 in adipose tissue, 117-121
 in hypercholesterolemic xanthomatosis, 279
 metabolism
 estrogen affecting, 1029
 glucose affecting, 235-243
 and ketone body formation, 742-756
 in perfused rat liver, 740
 plasma and serum
 determination of, 833-839
 gaschromatography of, 473
 and lipoprotein concentrations, 840-846
 myocardial extraction of, 814-817
- Fibrous dysplasia, polyostotic, with hypophosphatemia, 978-991**
- Floppy infant, aminoaciduria in, 357-363**
- Fluorexon, as fluorescent indicator, for calcium determinations, 278**
- Fluoride, effects on thyroid, 192**
- Fluorometholone, catabolic activity of, 940-944**
- Fluoxymesterone, in myeloma, 614-625**
- Fluprednisolone, catabolic activity of, 940-944**
- Fructose**
 hereditary intolerance, 727-730
 metabolism in disease, 641
- Galactosemia, 548, 1221**
- Gargoylism, 277**
- Gaschromatography of plasma fatty acids, 473**
- Gilbert's disease, 190**
- Globulins. *See* Protein**
- Glucagon**
 antibodies, 192
 effects on fatty acids, 572-577
 effects on insulin sensitivity, 1223
 effects on serum lipids, 1240-1247
 methandienone affecting response to, 513-522
- Glucocorticoids, effects on serum lipids, 1232-1239**
- Glucose**
 adipose tissue uptake
 and insulin bio-assay studies, 1315-1323
 leucine affecting, 738
 blood
 adrenal steroids affecting, 1031
 altitude affecting, 1148-1153
 salicylates and Khelline affecting, 1223
 turnover of, 738
 C¹⁴, incorporation into plasma triglycerides, 893-910
 cerebral metabolic effects of hypoglycemia, 1162-1167
 diaphragm uptake, leucine affecting, 738
 effects on fatty acid metabolism, 235-243
 glycosuria, community survey of, 1222
 hypoglycemic agents in diabetes. *See* Diabetes
 idiopathic hyperlipemia with hyperglycemia, 1194-1208
 liver uptake, insulin affecting, 737
 metabolism
 in aorta, 530-534
 in diseases, 641
 and electrolytes in red cells, 245-253
 nucleosides affecting utilization, 46-54
 obese-hyperglycemic mice, pancreatic islet tissue in, 342-347
 oxidation, thyroid hormone affecting, 737
 in perfused rat liver, 740
 release from liver, and potassium release, 548
 stimulation of salt retention, 329-336
 tolerance
 hydrocortisone and thyroid affecting, 699-704
 intravenous test, 482-497
 methandienone affecting test, 501-510
- Glucose-6-phosphate deficiency**
 in glycogen storage disease, 1126
 in red cells, 245-253
- Glucuronyl transferase, in Gilbert's disease, 190**
- Glutathione stability in red cells, factors affecting, 245-253**
- Glycerides**
 hyperglyceridemia, 872
 heparin in, 879-891
 plasma
 determination of, 833-839
 incorporation of C¹⁴ glucose into, 893-

- 910
- Glycerol, in perfused rat liver, 740
- Glycine, incorporation into uric acid, 470
- Glycogen
- depletion in diabetes with hyperthyroidism, 205
 - storage disease
 - glucose-6-phosphatase deficiency in, 1126
 - phosphorylase deficiency in, 380
- Glyconeogenesis, anabolic steroids affecting, 276
- Gonad
- dysgenesis
 - adrenal androgen biosynthesis in, 735
 - growth arrest in, 56-73
 - hypogonadism with pluriglandular failure, 735
- Gonadectomy, erythropoiesis after, 736
- Gonadotropin
